then go back for trial on its merits. There is a

possibility that the telephone case, though at the head of the list, will not be first heard, on

JACKSONVILLE, Fla., Sept. 28 .- A marked re-

As it is becoming quite common for persons to

declare allegiance to party publicly, by your leave I wish to say to the people of Pike county that I fully intend voting for Gen. Ben Harrison. It is true (and I confess it with a degree of

shame) that from the election of Mr. Buchanan

to the election in 1884, I voted the Democratic

ticket. But I cannot longer act with a party that is manifestly antagonizing the interests of

the men who, in the dark days of 1861 to 1865,

stood for the life of this Nation. The pretense

that the present executive of this country is the

special friend of the soldier must require an ex-

traordinary effort of the stanchest Democrat

to believe, and is entirely beyond belief by any one with any degree of political freedom.

Every act of the President has proven his an-

tagonism to the soldier. I cannot support a man

for President who, in his message, recommended

the passage of a general pension law and, when

Congress passes a bill almost in the very words

of the message, vetoes it. I cannot support a

man for Governor of the State of Indians who,

as chairman of the pension committee, reports a

the wholesale vetoes of private pension bills by

the President, and the failure of Mr. Marson to

The report further states that since the report of last year the legislative assembly of Utah has granted to tunnel, in this city, the frauds in connection with which are convulsing all Washington just now. It is stated that the contract for this the minority, or the non-Mormon element, represqueduct was given for \$83,000 more than the amount named by the lowest bidder. "Thus is presented the spectacle of the chief representative of the federal government in Utah being denied the right to exercise his legal authority, while at the same time the agents and leaders of those who are responsible for this action are at the capital of the Nation, proclaiming the loyal submission of the Mormon people to the laws, and demanding that they be rewarded for it. In our opinion one of the chief causes for the long delay in the settlement of the contest in Utah has been the exercise of po-litical power subordinate to the interests of the

Salt Lake and other cities. The recommenda-tion of last year, that the Governor of the Terri-

tory be given power to appoint county officers as follows: Selectmen, clerks, assessors, recorders and superintendents of public schools, is re-

newed. The legislative assembly, abjts session

in January last, the report states, dented the Hovernor the right to appoint the territorial

treasurer, auditor and other officers, and it is

In commenting upon the fact that the public schools of Utah are, with the exception of a few districts in Salt Lake City and in the mining regions, under the control of the Mormon churches, the commissioners refer to an act passed by the last legislative assembly, but vetoed by the Governor, which provided for the distribution of the public school fund for the support of public and private schools; also, the spinion expressed by President Wilford Woodruff, under date of June 8, 1888, that the "edutaken in hand by us as a people.

The perusal of books The we value as divine records is forbidden. Our children, if left to the training they receive in those schools, will grow up entirely ignorant of those principles of salvation for which the Lat-

ter-day Saints have made so many sacrifices. " " The desire is universally expressed by all thinking people in the church that we should have schools where the Bible, the Book of Mormon and the book of doctrine and covenants, can be used as text-books, and where the principles of our religion may form a part of the teaching of the schools." From these circumstances the majority con-

clude that the Mormon Church is committed to a policy which, if successful, will prove destructive to the public school system in Utab. The recommendation is therefore renewed that superintendents of public schools be appointable by the Governor. During the past year the different religious denominations had in operation ninety schools, attended by 7.442 pupils. Of this number, the Presbyterian Church conducted thirty-three of the schools; the Congregational, twenty-two; the Methodist, twenty; the Catholic, seven; the Episcopalian, five; the Baptist, two, and the Swedish, one.

The report expresses the opinion that the work under the law of Congress with respect to the registration of voters and the conduct of elections has been satisfactorily performed. During the year there have been eight indictments for polygamy and four convictions; 304 indictments for unlawful conabitation, and 326 convictions. In conclusion, the commissioners express the opinion that an energetic enforcement of the laws should be continued.

The Report in the Stahlnecker Case Fully Exonerates the New York Member. Washington, Sept. 28 .- It was ordered that when the House adjourned to-day it be to meet on Monday next.

Mr. Rice, of Minnesota, presented the report of the special committee which has investigated the charges against Representative Stahlnecker, of New York, in connection with the new library building. The report

"The testimony is very full, and the examina-tion was given considerable latitude, greater, perhaps, than the matter at issue would strictly warrant in support of the charges. The committee is unanimous in the opinion that the evidence does not sustain the charges, and there is no impression on the mind of any member of it that Mr. Stahlnecker is not fully exonerated from all charges or any improper attempt by persuasion, intimidation or other corrupt means to influence or control the action of J. L. Smithmeyer, architect of the library, in the selection or acceptance of any material to be used in the construc-tion thereof; nor does his action in connection therewith in any way reflect or leave a shadow of suspicion upon his honor or upon the dignity of the House of Representatives. They desire, also, to say, in conclusion, that they are satisfied from the investigation that the distinguished gentleman who offered the resolution and set on foot the inquiry was actuated by the most honorable motives and a sincere desire to vindicate the integrity of the House of Representatives."

The report was ordered printed and laid over. Mr. Dingley, of Maine, from the committee on merchant marine and fisheries, reported back the resolution cailing on the Secretary of the Treasury to state whether the Treasury Department has information of any violation of the navigation laws, and if so, whether any steps have been taken to vacate the American registers of vessels commanded by foreigners. ## Henry Bergh's Niece.

New York, Sept. 28.-A petite young lady with blonde hair was walking up Broadway yes terday when she saw a man attempting to make a lank borse pull a heavily laden truck, piled high with furniture. He quite agreed with her, and summoned a policeman, who made the driver stop his horse.

A great crowd gathered, and when some one ventured to ask who the lady was he was informed that she was Emily Bergh, niece of the late Henry Bergh, the president of the Society for the Prevention of Cruelty to Animals. When the policeman had taken the case in hand she resumed her work, searching for a

The recent chemical investigations made by the National Food Analysts have brought to light one fact which will be of special interest to housekeepers-that the Cream of Tartar used by the Price Baking Powder Company is the purest made in the world. The crystals are from the finest grapes, imported direct from the vineyards of France, and when freed from all impurities, used by them in the manufacture of the celebrated Dr. Price's Cream Baking Powder.

Dr. Price's Cream Baking Powder and Flavoring Extracts are used by the United States Government.
